We believe that Art is essential to society. It can allow us to reflect on what is important in life, who we are and what our purpose is, why we do what we do. We promote this by respecting and encouraging Members to achieve their goals and improve their skills, by providing a friendly and encouraging environment for meeting, networking, and learning new skills.

This Associations Aims are:

- 1) To provide a supportive, structured framework for local artists, at minimal financial cost to Members.
- 2) Members will work together to support each other in producing and promoting their artistic creations.

AAG's Objectives are:

- 1) To actively promote and encourage the Visual Arts in the City of Albany and surrounding districts.
- 2) To provide a wide variety of opportunities for local artists to develop their skills and exhibit their works.
- 3) To provide an effective online digital platform to support and promote Members work.
- 4) To provide a mutually beneficial networking framework for Members to work collectively, share ideas and resources, and support each others artistic endeavours.
