

Lee Garvey Artist

I am a contemporary artist living in the most beautiful part of the South West of Western Australia. I live near the beach and get my inspiration from it. My holidays and leisure time is spent exploring National Parks in Australia and walking on the many trails that we have in the South Coast.

I am interested in a variety of different mediums including oil painting, acrylics, resin, life drawing and even sculpture. I love painting portraits and landscapes.

My sculptures are made from old pieces of farm machinery and I have these scattered around my garden.

I have recently developed a passion for Resin Art and have been working extensively in this area. I love the rich vibrant colours of the Resin and the lack of control that you have with the medium
