TIGER: Out of
the Jungle
Scratch art and
ink

The beauties of the Australian bush, the wildlife, our rivers and oceans and especially our birds all have a part in inspiring me to paint art. Australian birds have always been my favourite. Visits to the zoo have encouraged me to experiment with other wildlife. Several years ago I acquired a beautiful set of artist quality coloured pencils. I have painted birds, dogs, cats and still life.

Recently I did a class at summer school and am enjoying the spontaneous flow of watercolour.

Scratch Art and ink has been added to my repertoire now. The detail is incredible using this form of art. Landscape and seascape in pastels, Flowers in acrylic are fun to paint.
